

## **COMMUNITY USE OF SCHOOL FACILITIES**

The physical facilities of the school district shall be made available for community service insofar as it does not interfere with regular school activities. The use of the school by the community shall only be outside of the regular school hours (except for their use during elections as polling places).

### **Use of School Facilities**

All groups wishing to use the school facilities shall do so under the following conditions:

1. Request for the use of school facilities shall be made to the appropriate school administrator at a reasonable amount of time prior to the date desired to use such facilities.
2. A legal written agreement which shall state the rental conditions, the purpose for which the facility is being used, as well as the assumption of liability for all property damage, must be signed by an adult representative of each group wishing to use the school facilities.
3. A custodian or other Logan-Rogersville employee must be present at all times during the rental period. If custodial or other support services are needed, payment shall be made to the employee at their hourly rate of pay or a set fee.
4. No rental charge or personnel compensation shall be made for use of the district's facilities by any Logan-Rogersville school-sponsored group or related group. (This does not eliminate the requirement of a school employee being present any time the district's facilities are being used.)
5. Facilities of the Logan-Rogersville R-VIII School District shall not be made available for:
  - a. Political meetings of candidates or groups.
  - b. Meetings of groups which are organized and/or oriented toward political goals, not primarily education in nature.
  - c. Meetings dedicated to religious worship.
  - d. Meetings oriented toward any aspect of labor-management negotiations or relations.
